Sentiment Analysis of Internship Feedback

By: MadadAllah

INTERNSHIP

Internee.pk

Objective

Analyze feedback from 1000+ interns to identify patterns in sentiment and suggest improvements, using Python and Excel tools.

Dataset Insights

- 1000+ Feedback Entries
- 50% Positive
- 30% Neutral
- 20% Negative

Tools Used

- Jupyter Notebook
- Python
- Pandas
- Seaborn
- Matplotlib
- Microsoft Excel

Final Insights:

- ✓ Majority feedback was positive
- ⚠ Issues in mentorship, clarity & engagement
- + Neutral responses highlight room to improve
